

# Ocean Gems Raw Crab Meat

All Natural, Sweet and Succulent

## Natural Environment

The blue swimmer crabs are caught off the North West Sri Lankan Coast, East Indian Ocean. The well preserved lagoons surrounded by lush mangroves, provide rich aquatic baits, making it a paradise for the blue swimmer crabs.

## Premium Quality

Ocean Gems Raw Crab Meat is of the highest quality. Using traditional and conservative methods, the live crabs are caught daily by the local fishing canoes. The crabs are carefully harvested from the net, graded, and hand processed within hours, following the stringent HACCP standards set in place.

## All Natural

The blue swimmer crabs are caught in most months of the year. Ocean Gems raw crab meat is free from chemical pollutants and preservatives. This thus ensures the purity of the crab meat.

## Responsible Fishing Practices

Fishing measures are undertaken to protect the marine ecosystem and livelihoods of the fishing communities. Bottom trawling is prohibited for blue swimmer crab fishing. Crabs that are caught must be above 100 grams and efforts are made to avoid the catching of female crabs. In addition, the mesh net size is also increased to reduce by catch.
